

## Deep Cleaning schedule – following Redlands Sileby Primary school closure / Confirmed COVID-19 case (opportunity to have a thorough clean whilst school is closed to all individuals)

This timetable serves as a structure to support a thorough cleanse of your school – it is not a mandatory schedule but is there to guide as appropriate. No school has had a confirmed coronavirus case. We also know that the COVID-19 is transmitted through respiratory droplets rather than being passed on as a result of touching surfaces or cloths etc. Current evidence suggests that coronavirus may remain viable for hours to days on surfaces so the longer a school remains undisturbed the less active the virus becomes. With this in mind we recommend not going back into school for at least 72 hours before any cleaning is done.

<p>Advice from H&amp;S and Wellbeing:  PPE should be worn when cleaning following closure/confirmed COVID-19 case  Use disposable cloths or paper roll and disposable mop heads, to clean and disinfect all hard surfaces or floor or chairs or door handles and sanitary fittings in the room. If surfaces are dirty, they should be cleaned using detergent or soap and water prior to disinfection then following one of the two options below:</p> <ol style="list-style-type: none"> <li>1. use either a combined detergent disinfectant solution at a dilution of 1000 parts per million available chlorine</li> <li>or</li> <li>2. a household detergent followed by disinfection (1000 ppm av.cl.). Follow manufacturer’s instructions for dilution, application and contact times for all detergents and disinfectants</li> </ol> <p>If an alternative disinfectant is used within the organisation, this should be checked and ensure that it is effective against enveloped viruses.</p>		
Location	Description	Action
Entrances, hallways and corridors.	Whilst these areas see a lot of traffic, a symptomatic individual passing through one of these areas would not widely contaminate it unless bodily fluid present.	<ul style="list-style-type: none"> <li>• Hoover Foyer Carpet</li> <li>• Clean entrance door glass and reception hatch/opening</li> <li>• Disinfect door handles, switches and door openers</li> <li>• Disinfect surface areas that individuals may have touched</li> <li>• Steam Clean Comfort chairs</li> </ul>
Classrooms	Classrooms entertain many individuals and would be most likely to contain contaminated surfaces if infected people have been in the school	<ul style="list-style-type: none"> <li>• Empty bins.</li> <li>• Clean white boards.</li> <li>• Vacuum all areas.</li> <li>• Scrub then Wet mop tiled floors.</li> <li>• Clean glass in doors, partitions and windows</li> <li>• Steam Clean sink areas and surrounds and follow with disinfectant wipe/solution</li> <li>• Clean door handles with disinfectant wipe/solution</li> <li>• Clean down white goods and microwave</li> <li>• Damp clean desk and tabletops and follow with disinfectant wipe/solution</li> <li>• Damp clean chairs</li> <li>• Clean door surfaces</li> </ul>
